Lisbon's Immigrant Roadmap

Lisbon's Immigrant Roadmap

The geo-strategic positioning of Lisbon grants it the status of crossroad between Europe and Africa, between Mediterranean and Atlantic, a point of both arrivals and departures, meeting and culture exchange place, space for learning tolerance in diversity. On the other hand, cities are multiple identities, plural and hybrid, and the diversity of cultural, expression, practices, languages and artistic contents must be an essential asset to preserve and to promote the several dimensions of city policies.

The Action Plan of the Social Rights Councillor for the years 2014-2017 at Lisbon's City Council establishes as an area of action the "Interfaith Dialogue", having as a goal "to value the cultural and religious diversity of the city". It is in this context that a set of actions is expected – services, programs and tools – to support and promote the inclusion of immigrants. "Lisbon's Immigrant Roadmap" is one of the actions established in the Plan, a "support tool" to all the newcomers to Lisbon, in which several needed services are identified such as: Tax Authorities, Healthcare Centres, Hospitals, Embassies, Job Centres, Foreigners and Borders Service, as well as many associations representative of their country of origin.

To the Lisbon's City Council, the reception of those who look for us, the appreciation of the different communities, the recognition of difference is the contribution for the solidary development of the city and all its citizens. Because of that, we created this Roadmap.

We hope that this may be useful to all which decided to choose Lisbon as their own.

João Carlos Afonso
Councillor for Social Rights
